Decisions & Action Items

Accommodation & Bookings

- **Long-Haul Carrier:** Selected Lufthansa Group via Munich/Zurich.
- **Singapore Base Camp:** Selected Robertson Quay (scenic river walks).
- **Singapore Lodging Style:** Selected 2-Bedroom Serviced Apartment.
- **Seoul Lodging Style:** Selected Premium High-Rise Airbnb Penthouse.

Local Apps & Connectivity

-

Local Navigation Setup: Ensure all family members download **Naver Map** or **KakaoMap** prior to arriving in Seoul (Google Maps does not provide walking/transit routing in South Korea due to national security laws).

- **Ride-Hailing Preparation:** Pre-register credit cards on **Grab** (Singapore) and **Kakao T** (Seoul) apps while in Austria to avoid setup errors on-site.
- **Mobile Data Plan:** Arrange family eSIMs (e.g., Airalo) or research pocket Wi-Fi rental packages to ensure seamless navigation data.

Legalities & Finance

- **Travel Formalities:** Confirm visa/entry requirements for Austrian citizens (e.g., SG Arrival Card online portal, K-ETA application status) and verify standard immunization recommendations.
- **Transit & Cash Management:** Track transit-card funding rules (Singapore allows direct contactless card/Apple Pay taps; Seoul subways require physical T-Money cards loaded with physical Korean Won cash).
- **Travel Health Insurance:** Verify that Austrian medical insurance or credit card policies cover private, high-limit emergency healthcare in both destinations.

Weather & Packing

- **Weather & Wardrobe Planning:** Draft packing lists tailored to tropical Singapore heat and Seoul's summer monsoon (*Changma*) humidity and downpours.
- **Power Adapters:** Pack **Type G** square UK plug adapters for Singapore. (Note: South Korea uses **Type C & F**, identical to Austrian wall outlets, so no adapters are needed in Seoul).
- **Carry-on Power Banks:** Ensure family portable chargers are under **100 Wh** (**20,000 mAh**) with clear factory-printed capacity labels on the plastic casing to avoid security confiscation.

Activity Planning

- **Activity Curating:** Identify interactive, kid-friendly activities (futuristic museums, cable

cars, food markets, themed shopping) to keep the 12-year-olds highly engaged.

- **DMZ Tour Assessment:** Research specific DMZ half-day tour operators leaving from Seoul, check booking requirements (passports needed!), and verify minimum age safety guidelines.
